Education

2017 – 2021 **Ph.D. in physics**, *RWTH Aachen University*, Germany.
- Graduated *summa cum laude* on 17 December 2021.
- Thesis: "Deep-Learning based Measurement of the Mass Composition of Ultra-high Energy Cosmic Rays using the Surface Detector of the Pierre Auger Observatory".
- Advised by Martin Erdmann.

2015 – 2017 **Master's degree in physics**, *RWTH Aachen University*, Germany.
- Graduated with distinction (1,2).
- Focus of study: particle physics, astrophysics.
- Thesis: "A Deep Learning-Based Reconstruction of Air Showers at the Pierre Auger Observatory."

2012 – 2015 **Bachelor's degree in physics**, *RWTH Aachen University*, Germany.
- Thesis: "Charge Reconstruction of Heavy Ions in Monte Carlo Simulations of the AMS-02 Experiment", Grade: 1.8.

Experience

2017 – 2022 **Postdoc**, *Erlangen Centre for Astroparticle Physics, Friedrich-Alexander-University*.
Research of gamma rays, teaching, supervision of bachelor and master students.

2020 – Today **Leader machine learning task**, *Pierre Auger Collaboration*.
Coordination of the working group that investigates new data-driven methods and their application in astroparticle physics. Organization of machine learning workshops and group meetings.

2017 – 2022 **Research assistant**, *III. Physics Institute A, RWTH Aachen University*.
Lecturing, supervision of bachelor and master students, assistance in the organization of workshops.
Research:
- Mass composition of ultra-high energy cosmic rays.
- Application of machine learning algorithms in particle physics.
- Acceleration of simulations using generative models.
- Domain adaptation using adversarial frameworks.
- Object reconstruction using deep learning.

Summer 2016 **Summer student at DESY**, *Hamburg, Germany*.
Project: "The impacts of the muon spoiler background for the ILC detector performance".

2016 – 2017 **Student assistant**, *III. Physics Institute A, RWTH Aachen University*.
- Experimental physics IV
- Astroparticle physics
- Physics for engineers

2015 – 2016 **Lab course assistant**, *I. Physics Institute B, RWTH Aachen University*.

Computer Skills

Coding Python, NumPy, TensorFlow, Keras, git, docker

Office LaTeX, Word, Excel, Powerpoint

Teaching

2018 – 2022 **Deep Learning in Physics Research**, *master course (120 students), every summer term*, RWTH Aachen University, lecturer.
Lecturing, preparation, and correction of exercises, course organization.

Languages

German Mother's tongue

English Native or bilingual proficiency

French Limited working proficiency

Community Activities

2013 Freshmen tutoring

2010 – 2012 Youth Leader

See separate pages for publications, invited talks, lectures, and conference contributions.

Invited Talks and Lectures (selected)

2021 **The Paris-Saclay AstroParticle Symposium 2021**, *Paris, France*, machine learning tutorial.

2021 **2nd Terrascale School on Machine Learning**, *Hamburg, Germany*, tutorial on Generative Adversarial Networks.

2021 **Physics seminar**, *"Generative Adversarial Networks for Physics Research"*, Linnaeus University, Sweden.

2020 **Big Data Science in Astroparticle Research**, *Aachen, Germany*, lecture on graph neural networks.

2019 **3rd inter-experimental machine learning workshop**, *CERN, Geneve, Switzerland*, lecture on Generative Adversarial Networks.

2019 **CMS Physics Object school**, *Aachen*, tutorial on Deep Learning.

2019 **Big Data Science in Astroparticle Research**, *Aachen, Germany*, lecture: "Introduction to Deep Learning".

2018 **1st Terrascale Workshop on Machine Learning**, *Hamburg, Germany*, lecture on adversarial frameworks.

2018 **Phenomenology Seminar**, *Heidelberg, Germany*, seminar: "Deep Learning in Physics Research".

2018 **Big Data Science in Astroparticle Research**, *Aachen, Germany*, lecture on generative models.

Conference Contributions

2021 **37th International Cosmic Ray Conference**, *Berlin, Germany (online)*, talk: "Event-by-event reconstruction of the shower maximum with the Surface Detector of the Pierre Auger Observatory using deep learning".

2021 **Quarks 2020**, *Pereslavl, Russia (online)*, talk: "Deep learning for astroparticle physics".

2019 **Artificial Intelligence for Science, Industry and Society**, *Mexico City, Mexico*, talk: "Deep Learning for Cosmic-Ray Observatories".

2019 **36th International Cosmic Ray Conference**, *Madison, USA*, poster: "Air-Shower Reconstruction at the Pierre Auger Observatory based on Deep Learning".

2019 **International Workshop on Advanced Computing and Analysis Techniques in Physics Research**, *Saas-Fee, Switzerland*, talk: "Deep Learning based Algorithms in Astroparticle Physics".

2018 **2nd inter-experimental machine learning workshop**, *CERN, Switzerland*, talk: "Refining Detector Simulations using Adversarial Networks".

2018 **Astroparticle Physics in Germany**, *Mainz, Germany*, poster: "Investigation of Deep Learning based Algorithms at the Pierre Auger Observatory".
